TEXTURE of Crystalline Solids

Volume 2

Contents
and
Author Index

GORDON AND BREACH SCIENCE PUBLISHERS

CONTENTS OF VOLUME 2

NUMBER 1

Texture control and the drawability of α-brass
J. R. RELLICK and A. LAWLEY 1

Microbands in 80% drawn copper single crystals with <111> and <100> starting orientations
S. HORIUCHI, K. ASAKURA, G. WASSERMANN and J. GREWEN 17

The structure effect on selective growth in recrystallization
V. JU. NOVIKOV 35

Oriented nucleation in the reverse transformation of Fe-30 Ni
JOHANNA GREWEN and GÜNTER WASSERMANN 45

Program for calculation of augmented Jacobi polynomials
PETER R. MORRIS 57

Short Communication
Crystallographic angles and standard projections of polyethylene crystal
H. C. CHAO and HSUN HU 67

Book Review: Material Behaviour of Anisotropic Solids - Thermal and Electrical Properties. W. Dreyer, Reviewed by H. W. BERGMANN 77

NUMBER 2

Data processing in three-dimensional texture analysis
JERZY JURA and JAN POSPIECH 81

Quantitative determination of preferred orientation by energy-dispersive X-ray diffraction
L. GERWARD, S. LEHN and G. CHRISTIANSEN 95

Effects of phosphorus on the annealing texture, plastic anisotropy, and mechanical properties of low-carbon steels
HSUN HU 113

NUMBER 3

Transmission Kossel study of the structure of cold-rolled iron and its nucleation behaviour
Y. INOKUTI and R. D. DOHERTY 143

Determination of the orientation distribution function from isolated axis density values
H. J. BUNGE 169

On orientation changes accompanying slip and twinning
W. F. HOSFORD 175

Deformation zone geometry and texture gradients in cold-rolled niobium
R. A. VANDERMEER and J. B. BERNAL 183

NUMBER 4

The orientation and position accuracy of electron diffraction
B. J. DUGGAN and I. P. JONES 205
A new library program for texture calculations
F. WAGNER, C. ESLING and R. BARO 225
A study of preferred orientation by energy-dispersive X-ray diffraction
E. LAINE, J. KIVILÄ and I. LÄHTEENMÄKI 243
Short Communication
On the sign of $Z_{\ell mn}(\xi)$
PETER R. MORRIS and DAVID C. KOSKENMAKI 253
Book Reviews: Ceramic Magnets, G. Heimke, reviewed by H. J. BUNGE 255
Structural Clay Products, W. E. Brownell. Reviewed by H. W. HENNICKE 257
